

Now Enrolling!
Registration closes 1 week prior to
class start date.

OSHA COURSES, LIVE-ONLINE! UPCOMING OSHA-AUTHORIZED CLASSES

We've been authorized to expand the availability of OSHA classes! Using a **live, online video-based delivery system** allows for real-time interaction between students and the instructor.

So, while we await the return of in-person classes, you can continue your OSHA education!

OSHA-Authorized

Same course curriculum, certificates of attendance and continued education units (CEUs) -- only the class delivery is different!

Live Participation

Instructors are online, live using the ZOOM video platform. Ask questions, chat and interact with instructors and classmates!

System Requirements

You'll need a broadband internet connection & a desktop computer, laptop or tablet, with a microphone and camera!
